FDP Overview

Today innovation is everyone's business. Whether you are a manager in a global corporation, an entrepreneur starting up, in a government role, or a teacher in an elementary school, everyone is expected to get lean – to do better with less. And that is why we all need design thinking. At every level in every kind of organization, design thinking provides the tools you need to become an innovative thinker and uncover creative opportunities that are there – you're just not seeing them yet. The purpose of this online FDP is to provides a practical approach to how to address issues using Design thinking approach in engineering

Subject: Invitation for Online Faculty development Programme.

Respected Sir,

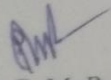

Ours is one of the leading engineering colleges in Maharashtra striving for inculcating professionalism in youth of our nation with stress on rural India. The college is being run by the trust Shri Vithal Education and Research Institute (SVERI), Pandharpur, founded by a group of technocrats. Under the umbrella of the trust, in the same campus, diploma engineering and degree and diploma pharmacy have taken good shape. The campus started with 160 students and around 8 faculty members in the year 1998, has around 4000 students and around 300 faculty members as on date. All the UG programs are NBA accredited and college also offers PG and Ph.D programs. The college is ISO 9001:2015 certified and has also been accredited by NAAC, IE (I), Kolkata and TCS, Pune.

As a part of our culture, we always take initiative to develop, upgrade and update the knowledge, skills and expertise of our faculty members. Towards above commitment, I wish to invite you for an interaction session on 25th June, 2020. With your expertise, we are confident that you will be able to impart valuable knowledge and insight to help us in our endeavor.

You are requested to kindly accept our invitation and oblige.

Thanking you,

Report of FDP

Shri Vithal Education and Research Institute's College of Engineering Pandharpur.
Department of Civil Engineering has organized online faculty development program on *"Design Thinking Approaches in Engineering"* the schedule of this particular program is for five days and the program was inaugurated with the auspicious hands of renowned consultant in Machine Learning and AI Hon. Ramesh Advani Sir

For this FDP the first session was delivered by Hon. Ramesh Advani Sir on the topic "Introduction To Design Thinking" in his session he had explained what is design thinking, what are the different parameters which are associated with the design thinking, how we are going to inculcate the culture of research using design thinking. The next session was conducted by renowned Industrial Planner, Architect Mrs. Sujata Kodag madam on the topic "Innovations and Minimalism-A Design Thinking Approach" she has delivered different aspects which are related with the design thinking and how we are going to create innovations using self design thinking approaches in the field of architecture as well as in any particular field, what are the basic things that you are requiring for the innovations as well as the Minimalism was explained by her in her session.

On the next day of this particular FDP we are having Hon. Dr. Prakash Apte Sir and has delivered his session on the topic "Development of Design Thinking Approach using 5 Key Steps" which involves defining the problem, ideate, prototype and solution which is basic steps and by his vast experience he shared his knowledge about the design thinking approaches and how it is to be done in the simplest manner so that we can develop research ideas among the stakeholders.

The next session was on the topic "Tools used for Design Thinking" and it is given by Hon. Dr. Prashant Pawar who is Dean Academics and Head of Civil Engineering Department of SVERI's College of Engineering, Pandharpur in this session he has explained different tools which are essential for the design thinking process and also highlight what approach that we have to develop for making in new innovative ideas creative ideas for the research attitude. This particular session helps us to develop or to create new ideas among everyone

On the third day of this online FDP on Design Thinking Approaches In Engineering the session began by Hon. Mr. Sudarshan Natu Sir and his topic of discussion was "Design Thinking-Product Design Experience Sharing" He has shared his vast experience with everyone and how design thinking process will help us in product designing he has

explained it in a very simple and lucid manner. The next session was conducted by Hon. Mr Sachin Wadikhye sir and has given the session on the topic "Practical Design Thinking" and highlighted on approach which is required in industries it may be mechanical industry, electronics industry and has highlighted the key points which are related with the design thinking processes and how this approach will help us to develop a product.

The fourth day of this particular FDP, first session the was taken by Hon. Dr Prakash Apte Sir and his topic of discussion "TRIZ Innovation Techniques" and how it is helpful for design thinking processes was explained by him. TRIZ Innovation Techniques helps to develop a research attitude and it will help us to create innovation, some new design ideas for the product development which will be for the betterment of the society.

Next session was conducted by Hon. Mrs Rachna Darshan and she has delivered her talk on the topic "Power of Design Thinking" how design thinking approach will help us in inculcating the research attitude among the students, faculty member, or the engineers and how it is helpful for the product development.

The last day of this particular online FDP program we are having our keynote speaker Hon. Mr Deepak Konda sir and he has delivered lecture on the topic "Understanding Different Aspects Of Architectural Planning Using Design Thinking" now in this particular situation he has highlighted the key elements which are useful in architectural planning, in planning of the various buildings using the design thinking approaches this is very fruitful for a budding civil engineers who are in the field of Designing as well as in the field of Architecture.

This online FDP program ends with the vote of thanks given by Hon. Dr Prashant Pawar sir who is Dean Academics and Head of Civil Engineering Department. For valedictory function we are having our chief guest as Trustee Member of SVERIs College of Engineering Hon. Mr Suraj Ronge sir. He has also highlighted and given guidelines about how design thinking approaches will help us in product development, in software development and how this culture will get inculcate among the students as well as in the faculty members and the engineers who are working in the professional companies. With this FDP ends by proposing vote of thanks to everyone. It is our privilege to have participants from across India, from various states like Jammu-Kashmir, Karnataka, and Madhya Pradesh...Etc.

Handwritten text in a cursive script, likely a list or ledger. The text is arranged in several horizontal lines, with some entries appearing to be organized into columns. The handwriting is dense and somewhat difficult to decipher due to the cursive style and the angle of the page.

Handwritten text in a cursive script, continuing the list or ledger from the previous section. This section is separated by a dashed horizontal line. The entries appear to be organized into columns, similar to the section above. The handwriting is consistent with the previous section.

Dear Sir,

I would like to express my sincere gratitude towards you for conducting the Online FDP entitled "Introduction to Design Thinking" for our participant on 22nd June, 2020. The participants of the program were significantly benefitted by the interaction. Your talk was informative, educative and an eye-opener for today's generation of teachers.

The college appreciates your time, dedicated effort for the interaction, and contribution in improving the well being of the participants.

It has been a pleasure working with you, and I look forward to working with you in our future educational endeavors.

Thanking you,

Regards,

(Dr. P.M. Pawar)

Dear Sir,

I would like to express my sincere gratitude towards you for conducting the Online FDP entitled "Introduction to Design Thinking" for our participant on 22nd June, 2020. The participants of the program were significantly benefitted by the interaction. Your talk was informative, educative and an eye-opener for today's generation of teachers.

The college appreciates your time, dedicated effort for the interaction, and contribution in improving the well being of the participants.

It has been a pleasure working with you, and I look forward to working with you in our future educational endeavors.

Thanking you,

Regards,

Dr. P.M. Pawar
