**Report on Research Paper Writing & Selection of Journals**

**Title of Workshop:** "Research Paper Writing & Selection of Journals"

**Date:** 27<sup>th</sup> January, 2023 to 2<sup>nd</sup> February, 2023 (1 Week)

**Venue:** ENTC Departmental Library, SVERI's College of Engineering, Pandharpur

**Organizing Institute:** SVERI's College of Engineering, Pandharpur

**Mode of Conduction:** Offline

**Resource Person:** Dr. R. R. Gidde (Dean R&D) & Mr. A. P. Kene

**Brief Details about the Workshop:**

The department of Electronics and Telecommunication Engineering, SVERI's College of Engineering, Pandharpur had organized a one week Workshop on "Research Paper Writing & Selection of Journals" from 27<sup>th</sup> January, 2023 to 2<sup>nd</sup> February, 2023. The aim of this one week Workshop is about writing a good research paper for publication. During this one week Workshop, the expert persons talked about motivation for writing a research paper and to move a particular field or research program forward by creating new ways of thinking about research objects. They have discussed the traditions / usual structure for writing a research paper. They also talked about the literature survey related to the problem. A weak review of the literature indicates that the author is not competent enough in the area and this may be one of the reasons for the rejection of the manuscript. A good review of the literature demonstrates the logical

continuity between previous and present work. It is very important to formulate the aim of the paper. The aim and the conclusion are the center of the manuscript where to concentrate all the material. They spoke about the most important rule in composing the list of references is that all the sources we have referred in the text must be included in the reference list and the list should contain only these references which are mentioned in the text. We should follow the journal's rules for forming the references, which in many cases are the same as in the Publication manual of the APA.

In this workshop the experts have spoken about how to choose a Right Journal for our Manuscript. A quality journal will be indexed by major bibliographic and citation databases such as Mendeley, Elsevier Scopus, Web of Science, etc.

**5 Days' workshop on "HANDS-on Program on Arduino Based Robotics and Automation"**

**Date:** 2<sup>nd</sup> May, 2023 to 6<sup>th</sup> April, 2023 (5 Days)

**Venue:** Conference Hall, SVRI's College of Engineering, Pandharpur

**Organizing Institute:** SVRI's College of Engineering, Pandharpur

**Mode of Conduction:** Offline

**Resource Person:** Mr. Chitranjan Mahajan from MD Dolphine Lab.

**Number of Students:** 59

**Brief Details about the Workshop:**

The department of Electronics and Telecommunication Engineering, SVRI's College of Engineering, Pandharpur had organized a one week Workshop on "HANDS-ON Arduino Based Robotics and Automation" from 2<sup>nd</sup> May 2023 to 6<sup>th</sup> May 2023. The aim of this one week workshop is aware the students about basic Arduino & Robotics. During this workshop, the resource person initially guided about importance of Arduino & Robotics in today's world different types of controllers, sensors, about arduino IDE software.

Second day resource person guided about Settings, Library addition, Use of Variables, Digital Pins, Analog Pins, PWM Pins, Serial Communication- Read and Write Serially.

Third day, He elaborated Interfacing of protocol based sensors like ultrasonic sensors, Temperature and humidity sensor, Interfacing with LCD, Interfacing with ADC and LM 35.

In day 4, He explained about Project- Black Line Follower Robot, White Line Follower Robot, Edge Follower Robot, Object Follower Robot, Touch Me Not Robot; Photo Maniac Robot, Photo Phobic, and Robot Object Avoidance Robot.

On day 5, He explained about Interfacing with Bluetooth Android App Development Home Automation using Android, Bluetooth Controlled Robot using Android App, Voice Controlled Robot using Android App, Haptic control for Robot using Android App, Robo Soccer using Android App and Many More.

### Objectives:

1. Understand the fundamentals of data science and learn about its tools and techniques.
2. Explore real-world applications of data science in various industries.
3. Gain insights into data science careers and the required skills.
4. Understand the fundamentals of machine learning.
5. Learn about the tools, frameworks, and techniques used in machine learning and deep learning.
6. Explore real-world applications of machine learning and deep learning.
7. Gain insights into careers in machine learning and artificial intelligence (AI).

### Outcome:

Acquire a strong foundation in the fundamentals of data science, including its principles, concepts, and methodologies.

Familiarize oneself with the essential tools and techniques used in data science, such as data manipulation, visualization, and analysis.

Explore real-world applications of data science across various industries, such as finance, healthcare, marketing, and e-commerce.

Develop an understanding of the skills required for a career in data science, including programming, statistical analysis, and problem-solving.

**Subject: Invitation as a Resource Person for 5 Days workshop on "HANDS-ON Experience on PLC & SCADA"**

Respected Sir,

Shri Vithal Education and Research Institute (SVERI), a charitable trust founded by a group of experienced technocrats, started SVERI'S College of Engineering Pandharpur in 1998, as its first venture with the approval from AICTE, New Delhi. It has been affiliated to Punyashlok Ahilyadevi Holkar Solapur University, Solapur. Recently, the College received A+ grade with CGPA 3.46 NAAC Accreditation. The College has UG, PG and PhD program and also entire eligible UG program is NBA accredited. The college is ISO 9001:2015 certified and has also been accredited by IE (I), Kolkata and TCS, Pune.

It gives immense pleasure to invite you as the Resource Person for 5 days workshop on "HANDS-ON Experience on PLC & SCADA" for final year ENTC students. The workshop will be conducted in the period of 24<sup>th</sup> April, 2023 to 28<sup>th</sup> April, 2023. We are sure that your guiding words will add energy in our endeavours for the development process of our institute.

Sir, we are very much eager to welcome you as resource person.

Thanking You,

Yours Faithfully,

### Report on Research Paper Writing & Selection of Journals

**Title of Workshop:** "Research Paper Writing & Selection of Journals"

**Date:** 21<sup>st</sup> January, 2023 to 25<sup>th</sup> January, 2023 (1 Week)

**Venue:** Civil Engineering Classroom, SVERI's College of Engineering, Pandharpur

**Organizing Institute:** SVERI's College of Engineering, Pandharpur

**Mode of Conduction:** Offline

**Resource Person:** Dr. R. R. Gidde (Dean R&D) & Mr. A. P. Kene

#### **Brief Details about the Workshop:**

The department of Civil Engineering, SVERI's College of Engineering, Pandharpur had organized a one week Workshop on "Research Paper Writing & Selection of Journals" from 21<sup>st</sup> January, 2023 to 25<sup>th</sup> January, 2023. The aim of this one week Workshop is about writing a good research paper for publication. During this one week Workshop, the expert persons talked about motivation for writing a research paper and to move a particular field or research program forward by creating new ways of thinking about research objects. They have discussed the traditions / usual structure for writing a research paper. They also talked about the literature survey related to the problem. A weak review of the literature indicates that the author is not competent enough in the area and this may be one of the reasons for the rejection of the manuscript. A good review of the literature demonstrates the logical continuity between previous and present work. It is very important to

formulate the aim of the paper. The aim and the conclusion are the center of the manuscript where to concentrate all the material. They spoke about the most important rule in composing the list of references is that all the sources we have referred in the text must be included in the reference list and the list should contain only these references which are mentioned in the text. We should follow the journal's rules for forming the references, which in many cases are the same as in the Publication manual of the APA.

In this workshop the experts have spoken about how to choose a Right Journal for our Manuscript. A quality journal will be indexed by major bibliographic and citation databases such as Mendeley, Elsevier Scopus, Web of Science, etc.

## Participation Details

- Faculty members of AICTE approved institutions, PG scholars, participants from government, NGO, Industries, startup founders, entrepreneurs etc.
- Upto 200 seats available on a first come first serve basis.
- No Registration fee to be paid.
- Online Mode

## About the FDP

The one week virtual Faculty Development Program [FDP] on "Conviction of Artificial Intelligence in Civil Engineering" is intended to provide opportunities for faculty members and researchers to enhance their knowledge and to keep abreast with Importance and Application of Artificial Intelligence in the Civil Engineering. This program will give overview of various applications of Artificial Intelligence in various sub-branches of civil engineering.

## Goals of the Program

- Learn the Basic Concepts of Artificial Intelligence.
- Importance of Artificial Intelligence to Solve Complex Civil Engineering Problem.
- Learn Applications of Artificial Intelligence in Various Sub-branches of Civil Engineering.

5. Dr. Nishant Pawar
6. Dr. Rupali Zope
7. Dr. Yogeshwar Navandar

**Event Description:**

Department of Civil Engineering has organized an “**FDP ON CONVICTION OF ARTIFICIAL INTELLIGENCE**” for Faculty Members at SVERI's College of Engineering institute premises from March 8, 2023 to March 12, 2023. This faculty development program (FDP) is devoted to fundamental theories, recent developments and research outcomes addressing the related theoretical and practical aspects of Artificial Intelligence (AI), Machine Learning (ML) and Deep Learning (DL) algorithms.

Artificial intelligence (AI) is the overarching discipline that covers anything related to making machines smart. Whether it's a robot, a refrigerator, a car, or a software application, if you are making them smart, then it's AI. Machine Learning (ML) is commonly used alongside AI but they are not the same thing. ML is a subset of AI. ML refers to systems that can learn by themselves. Systems those get smarter and smarter over time without human intervention. Deep Learning (DL) is ML but applied to large data sets. Most AI work now involves ML because intelligent behavior requires considerable knowledge, and learning is the easiest way to get that knowledge.

- Artificial Intelligence (AI) - the broad discipline of creating intelligent machines
- Machine Learning (ML) - refers to systems that can learn from experience
- Deep Learning (DL) - refers to systems that learn from experience on large data sets.

**Event Objectives:**

The objective of the FDP is to contribute to

- Define “Artificial Intelligence” (AI), “Machine Learning” (ML), and “Deep Learning” (DL)
- Explain how DL helps solve classical ML limitations.
- Differentiate modern AI from prior AI. & Relate sample applications of AI.

## Invitation Letter

Respected Sir,

Dr. Chintaman Bari

Assistant Professor, Sandip Foundation, Nashik

On behalf of SVERI's College of Engineering, Pandharpur, I am pleased to invite you to give presentation in a one-week FDP on "Conviction of Artificial Intelligence in Civil Engineering". The FDP is intended to provide opportunities for faculty members and researchers to enhance their knowledge and to keep abreast with Importance and Application of Artificial Intelligence in the Civil Engineering. This program will give overview of various applications of Artificial Intelligence in various sub-branches of civil engineering.

The FDP will provide ample opportunities for discussions, brainstorming sessions, and practical exercises. It will be an excellent platform for you to network with other experts in the field and share your knowledge and experiences.

We would be honored if you could grace the occasion with your presence and be a part of this important initiative. Your presence and contributions would make this event a resounding success.

Thank you for your time and consideration.

The main title reads 'Shri Vithal Education & Research Institute's College Of Engineering, Pandharpur.' Below this is a photograph of the college building. The text continues: 'DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING', 'SVERI's COE INSTITUTE'S INNOVATION COUNCIL (IIC)', and 'ORGANIZING Expert Talk'. The central theme is 'Intellectual Property Rights (IPR)'. On the left, the organizing committee is listed: PATRON (Dr. S. P. Ronge, Principal), CONVENER (Dr. S. P. Pawar, HOD CSE), IIC COORDINATOR (Dr. V. S. Kshirsagar), and COORDINATOR (Mr. V. M. Sale). In the center is a portrait of the guest speaker, Mr. Sidramappa S. Dharane. To the right of the portrait, his credentials are listed: M. E. Civil (Structural) Engg, B. E. Civil Engg, MIE, MISTE, with 25+ years of experience, teaching, research, and government schemes, 50+ patents, and 92 research publications in international journals. At the bottom, it states 'Scheduled on: 28/11/2022 at 01.00pm'.

**Description:** Intellectual Property Rights (IPR) are **set of rights associated with intangible creations of the human intellect**. It covers laws related to copyrights, patents, trademarks, and publicity rights.

**Objectives:** Objectives of intellectual property refer to the purposes of protection granted to creators of innovative intellectual creations. Intellectual property (IP) rights serve the important purpose of ensuring that creators will be recognized for their efforts and protected from infringement.

1. Enabling indirect revenues.
2. Promotion of culture.
3. Dissemination of technical information.
4. Facilitating technology transfer.
5. Open source' relies on IPR.
6. Collateral to obtain financing.
7. Providing guarantees regarding the quality and safety of products.

### Outcome:

The participants of the IPR session will be able to understand the procedures to convert the research outcome into patents. Intellectual Property refers to **creations of the human mind: It is intangible & created with human mental effort**. These include inventions, literary and images which are used in business & commerce. Intellectual Property is subdivided into several categories.

**Outcome in short:** IPR is the creation of the human mind. Potential efforts of human beings lead to intellectual outcomes which in turn have considerable value in the economy. Right associated with intellectual property which gives protection is referred to as IPR. IPR usually protects ideas or information of commercial value, playing a crucial role in the information market.

**Subject:** Invitation as the Resource Person for a Session on a workshop "Application of Artificial Intelligence for Product and Research"

Respected Sir,

Shri Vitthal Education and Research Institute (SVERI) is a charitable trust founded in Pandharpur (known as 'South Kashi' of India) by a group of technocrats. Today, around 4800 students are studying in this campus and around 1800 boys and 1500 girls are living in the separate hostels. The institute is moving ahead on the path of success with Excellent Academic Results, Excellent Placements, Excellent R & D, Excellent Infrastructure and Excellent Accreditations. After the establishment of the institution, various colleges have been started by this trust.

1. **SVERI's College of Engineering (UG & PG), Pandharpur (Year:1998)**  
(NAAC A+ with 3.46/4.00 CGPA and All eligible UG Programs have been accredited by NBA)
2. **SVERI's College of Pharmacy (UG, PG & Diploma), Pandharpur (Year: 2006) (UG Program accredited by NBA)**
3. **SVERI's College of Pharmacy (Poly.), Pandharpur (Year: 2006)**  
(Procedure for NBA is in progress)
4. **SVERI's College of Engineering (Poly.), Pandharpur (Year: 2008) (All eligible programs have been accredited by NBA)**

Sir, since inception, SVERI has been working for the betterment of society. The Rural Human Resource Development Facility (RHRDF) has been established at SVERI through MoU with Bhabha Atomic Research Center, Mumbai for deployment of the technologies of BARC in rural area. Around Rs. 2 Cr. CSR grant has been received from NPCIL, Tarapur for empowering villagers in Tarapur (Mumbai) region through propagation of BARC technologies. In addition, Rs. 5 Cr. grant has been approved by NITI Aayog for establishment of Atal Community Innovation Center (ACIC), in 2022. Recently, RGSTC has sanctioned research fund of Rs. 33.73 Cr. for the collaborative project of IIT Mumbai, VJTI, Mumbai and SVERI, Pandharpur on Drone Technology. The institute provides 'Earn & Learn' scheme to the needy students for bringing them in the flow of education by sparing budget around Rs. 1 Cr. every year and making expenditure accordingly.

Sir, we have organized a workshop on "Application of Artificial Intelligence for Product Development and Research" From 9<sup>th</sup> May 2023 for our Third year Students from Department of Electronics and Telecommunication Engineering and Department of Computer Science Engineering. We are pleased to invite you to take a session on "Application of Artificial Intelligence for Product Development and Research" on 9<sup>th</sup> 10<sup>th</sup> and 18<sup>th</sup> May 2023 at 4pm (IST) in the institute.

We believe that your presence and words of wisdom will take us (students, faculty members and all other stakeholders of this institute) to a different energy level which will help us achieve new heights of success in our future journey.

Sir, we are very much eager to welcome you. We are waiting for your positive response.

Thank you.

Your truly,

Respected Sir,

We express our heartfelt gratitude towards you for accepting our invitation as the Resource Person for the Session in workshop on "Application of Artificial Intelligence for Product Development and Research" arranged at ShriVithal Education & Research Institute (SVERI) College of Engineering, Pandharpur from 8th May, 2023 onwards. We are sure that your presence and words of wisdom have taken our students and faculty members to a different energy level which will help all to achieve new heights of success in their future journey.

Your vision and insights in the area of Artificial Intelligence for Product Development and Research have certainly boosted the confidence of our students and faculty members. It is the matter of pride and delight for us that you have spared your valuable time and enlightened all through your scholarly address. -

We request same kind of cooperation and guidance in future also.  
Thank you once again.

Yours faithfully,

### Report

The department of Computer Science and Engineering, SVERI's College of Engineering, Pandharpur had organized a Add on Course on "Firebase a comprehensive mobile development platform by Google" from 24<sup>th</sup> Aug, 2022 to 29<sup>th</sup> Aug, 2022. Students has studied following things through this add on course

- a. **Realtime Database:** Firebase offers a NoSQL, cloud-hosted database that enables developers to build real-time, collaborative applications effortlessly. It provides seamless data synchronization across clients, allowing for instant updates.
- b. **Authentication:** Firebase simplifies user authentication with various authentication methods, including email and password, social media logins, and single sign-on (SSO) options, ensuring secure user management.
- c. **Hosting:** Firebase Hosting offers a fast, secure, and reliable way to deploy web applications, complete with SSL certificates, content delivery networks (CDNs), and continuous integration and deployment (CI/CD) capabilities.
- d. **Cloud Functions:** Firebase allows developers to extend app functionality with serverless cloud functions, which can be triggered by various events and integrated with other Firebase services.
- e. **Authentication and Authorization:** Firebase offers fine-grained security rules to manage user access, ensuring that only authorized users can access specific data or perform certain actions within the app.
- f. **Cloud Storage:** Firebase Storage provides secure, scalable file storage for user-generated content, such as images, videos, and documents, with easy integration into applications.

## One Week Hybrid Faculty Development Program on

### "Unlocking Innovation: Exploring Research, Innovation, and Patents"

17<sup>th</sup> July 2023- 22<sup>nd</sup> July 2023

## Report

### About the Program

The One Week Hybrid Faculty Development Program on "Unlocking Innovation: Exploring Research, Innovation, and Patents" was a comprehensive and dynamic initiative aimed at enhancing the knowledge and skills of faculty members in the field of research, innovation, and intellectual property.

The program was designed to provide a platform for educators and researchers to delve into the intricacies of innovation, explore the significance of research in driving innovation, and understand the crucial role of patents in protecting intellectual property. It aimed to equip participants with the necessary tools and techniques to foster a culture of innovation within academic institutions and beyond.

Throughout the one-week duration, participants engaged in a variety of interactive sessions, workshops, and seminars, conducted by experts and industry leaders from diverse fields. The program covered a wide range of topics, including:

1. Understanding the research process: Participants were introduced to the fundamentals of conducting research, identifying research gaps, and formulating research questions.
2. Cultivating innovation: The program emphasized the importance of fostering a creative and innovative mindset among faculty members and students. It explored strategies to encourage out-of-the-box thinking and problem-solving.
3. Intellectual property and patents: Participants learned about the significance of intellectual property rights and the patenting process. They gained insights into how patents can protect and promote innovation, both in academic settings and in the commercial world.

4. Commercialization of research: The program delved into the process of transforming research outcomes into real-world applications and commercial ventures. Participants were exposed to case studies of successful research commercialization.
5. Collaboration and networking: Participants were encouraged to collaborate with industry partners, research institutions, and fellow educators to promote cross-disciplinary research and innovation.
6. Legal and ethical considerations: The program highlighted the importance of adhering to ethical standards while conducting research and developing innovations. It also covered legal aspects related to patents and intellectual property rights.
7. Funding opportunities: Participants were informed about various funding sources available to support research and innovation projects, including government grants, private sector sponsorships, and research foundations.

The hybrid nature of the program allowed for both in-person and online participation, making it accessible to a wider audience. Interactive discussions, group activities, and hands-on exercises enabled participants to apply the knowledge gained during the program to their specific areas of interest.

Overall, the One Week Hybrid Faculty Development Program on "Unlocking Innovation: Exploring Research, Innovation, and Patents" provided a stimulating environment for faculty members to enhance their research and innovation capabilities, fostering a culture of creativity and entrepreneurship within academic institutions.

## Details of FDP

1. The FDP was inaugurated by Dr. Asish Parmane, National Institute of Technology, Silchar, Assam and Dr. S. B. Bhosale, HOD, Mech. Engg. SVERI's COE Pandharpur. He elaborated the importance of research and innovation and shared his experiences.
2. The session of day one started with topic "Quality Research Paper Writing by Developing Required Skills and Using Relevant Tools" which delivered by Dr. Asish Parmane, Assistant Professor, National institute of Technology, Silchar, Assam.
3. Day two involved session from Dr. Vijay Mandal from Indian Institute of Technology, Bombay.

He spoke about Numerical and Experimental Study on Laser Powder Bed Fusion (L-PBF) Additive Manufacturing Process.

4. Day three involved expert session from Prof. V. P. Kulkarni from Walchand Institute of Technology, Solapur. He enlightens about design thinking regarding innovation.
5. Day four focused on Effective tool utilization for research paper writing by Dr. Bappa Monda from GMR Institute of Technology, Rajam, Andhara Pradesh.
6. Day five was about general tips and tricks about writing an effective research paper by Dr. Lalit Patil from Dr. D Y Patil Institute of Technology, Pune. Session two for this day speaker was Dr. Divya Zindani from Sri Sivasubramaniya Nadar College of Engineering, Rajiv Gandhi Salai (OMR), Kalavakkam, Tamilnadu, he spoke about optimization techniques useful for research.
7. Day Six was related to Renewable energy source selection for sustainable planning along with energy modeling expert for this talk was from Dr. Chiranjib Bhowmik from Techno India University, Kolkata, West Bengal.
8. For Valedictory function guest was Dr. Digvijay Singh from Kirloskar Institute of Management, Pune. He appreciated concept of FDP and shared he's thoughts about interdisciplinary research.
9. The FDP was concluded with vote of thanks to all speakers and participants. The participants expressed their thoughts and appreciated the efforts of coordinator in arranging the event.

### About the FDP

The One Week Faculty Development Program (Hybrid Mode) on "Unlocking Innovation: Exploring Research, Innovation and Patents (UIERIP-2023)" have been organized. In this FDP, participants will be subjected to different facets of writing and commencing with problem definition to sharing their published work in front of a larger audience. The FDP participants will learn how to use and analyze data which will help them in their research work and patents. The focus of this FDP in particular, is to acquaint the participants with the skills required to publish in reputed international and national journals.

### Eligibility

The faculty members of AICTE approved institutions, Universities, research scholars; participants from Government, Industry (Bureaucrats/Technicians/Industry experts etc.) & professionals from R&D labs are eligible for this FDP. Number of participations are limited and selection of the participants will be based on the first come first serve basis.

### Registration

Registration has to be done only through <https://forms.gle/aZd3YXKGWd9vckr7>

### No Registration Fees.

### FDP mode and certificate criteria

- > The entire FDP will be conducted through Hybrid mode. Further details of the program will be sent to the registered participants by email and WhatsApp.
- > It is mandatory to attend the hands-on training/ assessment and to have a minimum of 80% overall attendance.

### Key Takeaways:

- > Interaction with researcher from various reputed academic and industries.
- > Hands-on training.
- > Throughout knowledge regarding publication and patents.

### About The Institute

The Vithal Education and Research Institute (SVERI) is a charitable trust formed by devoted technocrats and established its first project as College of Engineering Pandharpur in 1998. It has been affiliated to Solapur University, Solapur. The Engineering College is ISO 9001:2015 Certified, accredited by Institution of Engineers (India) Kolkata, NAAC 'A' (3.46/4.00 CGPA) accredited.

SVERI is running College of Engineering (COEP), College of Engineering (Polytechnic), College of Pharmacy and College of Pharmacy (Poly), Pandharpur in Gopalpur campus. College of Engineering, Pandharpur (CEP) was established in 1998 with 160 students at UG level, now it has five UG courses with 540 intakes, four P.D. courses with 72 intakes, M.B.A. and M.C.A. courses with 60 intake each and four Ph.D. recognized centers in Mechanical Engineering, Electronics and Telecommunication Engineering, Civil Engineering and Computer Science & Engineering.

### About The Department

The Department of Mechanical Engineering was established in the year 1998. The department has 35 qualified and dedicated faculty members with the specialization in various areas. The department offers UG (Intake-120), PG (Intake-18), and PhD programs. Mechanical Engineering Department is known for its high academic standard, well-trained discipline & excellent infrastructure facilities along with the state-of-the-art laboratories such as Advanced Manufacturing Laboratory, Composite Laboratory, Vibration Laboratory, and Industry Connected Machining Centers (CNC and VMC) along with CAD/CAM/CAE software.

**Subject-Invitation as the Resource Person for FDP on 'IPR-Patent, Design, Trademark & Copyright'**

Respected Sir,

Shri Vithal Education and Research Institute (SVERI) is a charitable trust founded in Pandharpur (known as 'South Kashi' of India) by a group of technocrats. Today, around 4800 students are studying in this campus and around 1800 boys and 1500 girls are living in the separate hostels. The institute is moving ahead on the path of success with Excellent Academic Results, Excellent Placements, Excellent R & D, Excellent Infrastructure and Excellent Accreditations. After the establishment of the institution, various colleges have been started by this trust.

- 1. SVERI's College of Engineering (UG & PG), Pandharpur (Year: 1998)**  
(NAAC A+ with 3.46/4.00CGPA and All eligible UG Programs have been accredited by NBA)
- 2. SVERI's College of Pharmacy (UG, PG & Diploma), Pandharpur (Year: 2006)**  
(UG Program accredited by NBA)
- 3. SVERI's College of Pharmacy (Poly.), Pandharpur (Year: 2006)**  
(Procedure for NBA is in progress)
- 4. SVERI's College of Engineering (Poly.), Pandharpur (Year: 2008)**  
(All eligible Programs have been accredited by NBA)

Sir, since inception, SVERI has been working for the betterment of society. The Rural Human Resource Development Facility (RHRDF) has been established at SVERI through MoU with Bhabha Atomic Research Center, Mumbai for deployment of the technologies of BARC in rural area. Around Rs. 2 Cr. CSR grant has been received from NPCIL, Tarapur for empowering villagers in Tarapur (Mumbai) region through propagation of BARC technologies. In addition, Rs. 5 Cr. grant has been approved by NITI Aayog for establishment of Atal Community Innovation Center (ACIC), in 2022. Recently, RGSTC has sanctioned research fund of Rs. 33.73 Cr. for the collaborative project of IIT Mumbai, VJTI, Mumbai and SVERI, Pandharpur on Drone Technology. The institute provides 'Earn & Learn' scheme to the needy students for bringing them in the flow of

education by sparing budget around Rs. 1 Cr. every year and making expenditure accordingly.

We feel proud to declare that we have organized one week Faculty Development Program on 'IPR-Patent, Design, Trademark & Copyright' from 17<sup>th</sup> July 2023 to 22<sup>nd</sup> July 2023. We are pleased to invite you as a resource person for this FDP. We believe that your presence and words of wisdom will take the participants to a different energy level which will help us achieve new heights of success in our future journey.

Sir, we are very much eager to welcome you & waiting for your positive response.

Today, around 4800 students are studying in this campus and around 1800 boys and 1500 girls are living in the separate hostels. The institute is moving ahead on the path of success with Excellent Academic Results, Excellent Placements, Excellent R&D, Excellent Infrastructure and Excellent Accreditations. After the establishment of the institution, various colleges have been started by this trust.

- 1. SVERI's College of Engineering (UG & PG), Pandharpur (Year: 1998)**  
(NAAC A+ with 3.46/4.00 CGPA and All eligible UG Programs have been accredited by NBA)
- 2. SVERI's College of Pharmacy (UG, PG & Diploma), Pandharpur (Year: 2006)**  
(UG Program accredited by NBA)
- 3. SVERI's College of Pharmacy (Poly.), Pandharpur (Year: 2006)**  
(Procedure for NBA is in progress)
- 4. SVERI's College of Engineering (Poly.), Pandharpur (Year: 2008)**  
(All eligible Programs have been accredited by NBA)

Sir, since inception, SVERI has been working for the betterment of society. The Rural Human Resource Development Facility (RHRDF) has been established at SVERI through MoU with Bhabha Atomic Research Center, Mumbai for deployment of the technologies of BARC in rural area. Around Rs. 2 Cr. CSR grant has been received from NPCIL, Tarapur for empowering villagers in Tarapur (Mumbai) region through propagation of BARC technologies. In addition, Rs. 5 Cr. grant has been approved by NITI Aayog for establishment of Atal Community Innovation Center (ACIC), in 2022. Recently, RGSTC has sanctioned research fund of Rs. 33.73 Cr. for the collaborative project of IIT Mumbai, VJTI, Mumbai and SVERI, Pandharpur on Drone Technology. The institute

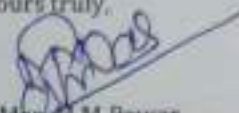

education by sparing budget around Rs. 1 Cr. every year and making expenditure accordingly.

We feel proud to declare that we have organized one week Faculty Development Program on 'IPR-Patent, Design, Trademark & Copyright' from 17<sup>th</sup> July 2023 to 22<sup>nd</sup> July 2023. We are pleased to invite you as a resource person for this FDP. We believe that your presence and words of wisdom will take the participants to a different energy level which will help us achieve new heights of success in our future journey.

Sir, we are very much eager to welcome you & waiting for your positive response.

Your words of wisdom have ignited a transformative spark within each individual, empowering them to reach for new heights and surpass their own limitations. The impact you've made will continue to resonate, nurturing a lasting motivation that will guide them towards extraordinary achievements on their forthcoming paths. Your vision and insights in the area of IPR-Patent, Design, Trademark & Copyright have certainly boosted the confidence of participants. It is the matter of pride and delight for us that you have spared your valuable time and enlightened all through your scholarly address.

We request same kind of cooperation and guidance in future also.

Thank you once again.

### Description:

Prime Minister Narendra Modi had in 2022 announced January 16 as the National Startup Day in order to promote entrepreneurship and promote businesses.

The PM had called start-ups the backbone of the 'new India'.

With the aim to foster a spirit of entrepreneurship and innovation by involving the startup community, multiple organisations had conducted events. They were conducted as a part of the Azadi Ka Amrit Mahotsav celebrations. Launched on 16th January, 2016, the Startup India Initiative is an initiative of the Department for Industrial Policy and Promotion (DPIIT). It strives with the objective of supporting entrepreneurs, building a robust startup ecosystem and transforming India into a country of job creators instead of job seekers.

Under the Startup India Initiative, the key pillars include

Simplification and Handholding - Easier compliance, easier exit process for failed startups, legal support, fast tracking of patent applications and a website to reduce information asymmetry.

Funding & Incentives - Exemptions on Income Tax and Capital Gains Tax for eligible startups; a fund of funds to infuse more capital into the startup ecosystem and a credit guarantee scheme.

Incubation & Industry-Academia Partnerships - Creation of numerous incubators and innovation labs, events, competitions and grants.

## Objectives:

The day is marked to encourage the spirit of entrepreneurship and promote achievements of Indian startups. It is also commemorated to provide a platform for startup entrepreneurs to discuss innovation for India's youth and their contribution to the economy. The motive behind encouraging the idea of entrepreneurship is to give a boost to schemes like Make-in-India.

## Outcome: Student will come to know about:

National Startup Day is a validation of the role of startups in the growth of the country's GDP and strengthening India's position at a global stage, and will encourage young talent to see entrepreneurship as a primary career option, according to industry experts. The contribution of startups include by way of large infusion of FDI in an asset class outside of public markets, export of products and services by the country, larger base of retail investors borne out of employees with respectable salaries and wealth creation tools such as ESOPs and being a key consumption market in the global economy.

## Description:

Today's competitive landscape heavily relies on innovation. Business leaders must constantly look for new ways to innovate because you can't solve many problems with old solutions.

Innovation is critical across all industries; however, it's important to avoid using it as a buzzword and instead take time to thoroughly understand the innovation process. Innovation and creativity are often used synonymously. While similar, they're not the same. Using creativity in business is important because it fosters unique ideas. This novelty is a key component of innovation. For an idea to be innovative, it must also be useful. Creative ideas don't always lead to innovations because they don't necessarily produce viable solutions to problems.

Simply put: Innovation is a product, service, business model, or strategy that's both novel and useful. Innovations don't have to be major breakthroughs in technology or new business models; they can be as simple as upgrades to a company's customer service or features added to an existing product.

## Types of Innovation

Innovation in business can be grouped into two categories: sustaining and disruptive.

**Sustaining innovation:** Sustaining innovation enhances an organization's processes and technologies to improve its product line for an existing customer base. It's typically pursued by incumbent businesses that want to stay atop their market.

**Disruptive innovation:** Disruptive innovation occurs when smaller companies challenge larger businesses. It can be classified into groups depending on the markets those businesses compete in. Low-end disruption refers to companies entering and claiming a segment at the bottom of an existing market, while new-market disruption denotes companies creating an additional market segment to serve a customer base the existing market doesn't reach.

The most successful companies incorporate both types of innovation into their business

strategies. While maintaining an existing position in the market is important, pursuing growth is essential to being competitive. It also helps protect a business against other companies affecting its standing.

### **Objectives:**

1. To differentiate your organization in the marketplace
2. To build customer loyalty
3. To identify savings potential
5. To achieve revenue potential
6. To accelerate exploitation of new business ideas worthy of pursuing
7. To a build climate and culture of innovation as per the organization's innovation mission
8. To become a leading innovation brand for products and services in the markets served and new markets you may serve
9. To improve and expand current products and services
10. To access new technologies
11. To access new markets
12. To identify market trends
13. To improve product quality and associated core processes
14. To improve employee attraction, engagement, and retention
15. To develop new competencies

### **Outcome:** Student will come to know about:

1. Improved productivity & reduced costs

A lot of process innovation is about reducing unit costs. This might be achieved by improving the production capacity and/or flexibility of the business – to enable it to exploit economies of

scale

## 2. Better quality

By definition, better quality products and services are more likely to meet customer needs. Assuming that they are effectively marketed, that should result in higher sales and profits

## 3. Building a product range

A business with a single product or limited product range would almost certainly benefit from innovation. A broader product range provides an opportunity for higher sales and profits and also reduces the risk for shareholders

## 4. To handle legal and environmental issues

Innovation might enable the business to reduce its carbon emissions, produce less waste or perhaps comply with changing product legislation. Changes in laws often force business to innovate when they might not otherwise do so

## 5. More added value

Effective innovation is a great way to establish a unique selling proposition ("USP") for a product – something which the customer is prepared to pay more for and which helps a business differentiate itself from competitors

## 6. Improved staff retention, motivation and easier recruitment

Not an obvious benefit, but often significant. Potential good quality recruits are often

### Description:

India is one of the youngest countries in the world, with a substantial population in the schools. Concerted efforts and policy interventions are required to translate this demographic potential into dividends. The current school education is heavily focused on the rote learning and rigid examination system which ignores the ever increasing importance of creative thinking, design thinking, ideation, innovation, patents, problem solving and entrepreneurial mindset. The current the school education system lacks the focus on innovation-oriented activities. National Education Policy 2020 (NEP 2020) restructures and advocates for synergetic convergence in our education system: From pre-primary to higher education and also reconfigures the education system with new skills, innovation and a research ecosystem. It lays great emphasis on promoting the ideation, out of box thinking, innovation and entrepreneurship (IIE), at the school education level in a sustainable manner. It advocates for synergistically connecting IIE ecosystem at the school education level with that of the higher education ecosystem including hands on learning and skill development.

### Objectives:

Innovation and Entrepreneurship education teaches students important life skills, such as:

1. Collaborating and working with a team
2. Speaking in public and prepare an effective presentation (digitally and in-person)
3. Collecting, analyzing, and using data
4. Using social media for promotion and/or advocacy
5. Handling real, complex problems that don't have a definitive answer
6. Using curiosity and creativity to find an innovative approach to difficult problems

### Description:

An Expert Talk on “**Intellectual property Rights**” was conducted on 25<sup>th</sup> January, 2023, from 4.00 P.M. to 5.00 P.M. by the Department of Master of Business Administration Department and SVERI's Institution Innovation Council, Pandharpur. The speaker for this Expert Talk was Prof. Ranjana N. Khandebarad who had academic experience of more than 3 years.

### Objectives:

1. To recognize the importance of IP and to educate the pupils on basic concepts of Intellectual Property Rights.
2. To identify the significance of practice and procedure of Patents.
3. To make the students understand the statutory provisions of different forms of IPRs in simple forms.
4. To learn the procedure of obtaining Patents, Copyrights, Trade Marks & Industrial Design.

### Outcome:

The participants of the ‘**Intellectual Property Rights**’ session will be able to understand the necessity of acquiring Knowledge of IPR for being an Entrepreneur. Students understood how to analyze rights and responsibilities of holders of Patent, Copyright, Trademark, Industrial Design etc. This session also gives the opportunity to students to develop their skills for making searches using modern tools and techniques. This includes thinking about your own start-up and applying youths' talent for setting up businesses which helps to ourselves as well as countries' development in various fields.
