REPORT

The Department of Mechanical Engineering conducted a **certificate course on CATIA V5 R18 from 03/02/2016 to 11/02/2016**. The resource person for this certificate course was Mr. S. J. Shinde from SVERI's COE, Pandharpur. In this certificate course the student got the detail knowledge about new trends and techniques in *CATIA V5 R18 with hands on practical* and which are the new tools plans available in upcoming days for the Mechanical Engineer in the field of Mechanical Design and Modeling. Domestic and industrial applications of *CATIA V5 R18 with practical on Mechanical Automotive parts* have been covered in this certificate course. **Total 135 students of B. E. Mechanical participated in this certificate course.** All the faculty members from Mechanical department worked actively for the successful completion of certificate course.

The Course outcomes for this course are:

- 1) Student got the knowledge about which are the new opportunity available for Design/business in Mechanical Engg. Sector.**
- 2) Student understood the application of CATIA V5 R18.**

Sub: Report of Certificate Course on "Arduino & PCB Design".

Respected Sir,

The Certificate Course on "Arduino & PCB Design" is conducted for SE students from 14th March to 21st March 2016. During training, basic concepts of Arduino Programming and Hands on Experiment on PCB Design is covered and total 48 students were present for the course. This course is helpful for the students to gain Knowledge and for Project Purpose.

Thank you,

Yours faithfully,

One Page Report

The Department of civil Engineering conducted a certificate course on Introduction to AUTO CADD software from 20/08/2015 to 29/08/2015. In this certificate course the student got the detail knowledge about new trends of auto cad software which is helpful to draw and edit digital 2D and 3D designs more quickly and easily than you could by hand. The files can also be easily saved and stored in the cloud, so they be accessed anywhere at any time. It helps users creating designs in either 2D or 3D so that they can visualize the construction. CAD enables the development, modification, and optimization of the design process. Total 76 students of S.E. civil participated in this certificate course. All the faculty members from civil department worked actively for the successful completion of certificate course. The Course outcomes for this course are

- 1) Student got the knowledge about which are the new opportunity available for business in construction sector.
- 2) Student understood the application of Auto-CADD.

One Page Report

The Department of civil Engineering conducted a certificate course on Application of Auto-CAD software for design of Residential and public buildings from 21/01/2016 to 30/01/2016. In this certificate course the student got the detail knowledge about new trends of auto cad software which is helpful to draw and edit digital 2D and 3D designs more quickly and easily than you could by hand. The files can also be easily saved and stored in the cloud, so they be accessed anywhere at any time. It helps users creating designs in either 2D or 3D so that they can visualize the construction. CAD enables the development, modification, and optimization of the design process. Total 76 students of S.E. civil participated in this certificate course. All the faculty members from civil department worked actively for the successful completion of certificate course. The Course outcomes for this course are

- 1) Students got the knowledge about which is the new opportunity available for business in construction sector.
- 2) Student understood the application of Auto-CAD.
