Respected Sir,

This is to express our heartfelt gratitude towards you for guiding our Students and during your visit to our Institute as a resource person on the topic "Coding" on 13th October 2017.

Thanks again for the Session our students have gained a lot of practical information. It was very engaging as well, which is not that easy. Your passion for guiding people is evident and we hope to see lots of fruit from them.

Your valuable thoughts will always keep us inspiring and motivated.

We request same kind of co-operation in future also.

Thanking you once again,

Yours faithfully,

C Programming Training

Training Plan

Pehlajob

Workshop Highlights:

C is a programming language developed in the early 1970s by Dennis Ritchie. It is a structure-based, top down approach oriented language, commonly used for building system applications, database systems, and graphics packages. This online C programming course starts with a general introduction to C language concepts and gradually progresses to advanced methodologies. The course also provides hands-on training to help you write and test your coding skill.

The C Training course covers C Programming language essentials such as Programming techniques, decision making statements, iterations, functions, macros & 1D array.

Any student or programmer who adds knowledge of C into their programming skill set is guaranteed to succeed in the tech industry. An adept knowledge of C programming language will help you learn and grasp other programming languages with ease.

What student will learn after attaining this workshop?

- Create console-based applications using C language
- Write modular programs by using functions
- Use pre-processor directives in a program
- Use pointers to handle integer arrays
- Use pointers to handle integer arrays, strings, structures and files
- Learn about variables and constants, data types, arithmetic operators, and loops
- Execute programs using command line arguments
- Dynamically allocate memory to hold data of different types
- Process data in files using file I/O functions
- Implement singly linked list

Training Session Details: This is a Eight (08) Day Training

Day 1:

- Introduction to programming language
- Data types
- Variables
- Operators
- Simple programs in C

Day 2:

- taking input from user
- control statements
- If else
- switch

Day 3:

- decision making statements
- while
- do while
- for

Day 4:

- Nested Loops
- break and continue statements
- business logic

Day 5:

- Array and strings
- 1D & 2D
- taking input from users

Day 6:

- functions in C
- parameterized
- Non parameterized

Day 7:

- Pointers
- Structures
- recursive functions

Day 8:

- file handling
- reading
- writing
- all file handling functions

Day 9:

- Projects
- Doubt solving

Cost Summary:

- Fees: 1400 per hour
