To,

The Principal,
SVERI's College of Engineering,
Pandharpur.

Subject: About ERP Software

Respected Sir,

With respect to the subject cited above, I Mr. Samudragupta Talukdar, an Alumnus of SVERI's College of Engineering, Pandharpur of Batch 2007 from Electronics and Telecommunication Engineering of this esteemed organization. Currently, I am acting as Founder and Director of Tutelminds Technoconsultants Pvt. Ltd.

I would like to offer the ERP software developed by Tutelminds Pvt. Ltd. free of cost to College as sign of my appreciation towards the quality education provided by the Institute.

We have given Demo on various modules of Tutelminds and I feel proud to offer this to my alma mater for the period of years, i.e. from 01/01/2015 to 31/12/2018 for free of cost.

Kindly accept a token of my gratitude and oblige and allocate the coordinator and team of your faculty members for smooth implementation.

Thanking you,

Yours sincerely,

(Mr. Samudragupta Talukdar)
Founder and Director,
Tutelminds Technoconsultants Pvt. Ltd.

Product Brochure

Tutelminds

Formed by two words - **Tutelage** and **Minds.**

Tutelage is "The State of being under the direction of a guardian" and **Minds** signifies "The Faculty of thinking, reasoning, and applying knowledge".

Our Vision

To become a leading solution providing technology company

Our Mission

Our mission is to enable people and businesses realize their full potential.

Tutelminds is committed to bring the best technology experience to end users through its innovative solution offerings and profitable growth through superior quality, customer service.

Our Goal

To be a leading technology solution provider, serving needs of customers from different industries by delivering efficient and cost effective solutions.

Our Workway

We adopt a novel approach to Business Transformation Consulting - We not only assist in identifying current process gaps but also facilitate the future process work way through improvement, implementation and alignment of processes reducing delta and ensuring value add by -

- Use of Lean Six Sigma methodology
- Use of automation combined through People, Process And Technology
- Developing innovative turnkey solutions

Our Products & Services

Educational Segment

- Engineering Kit [For Diploma & Degree Engineering Students]
- How to Freeze your Arms in MNCs – A training and placement program for Engineering graduates
- Tutelminds Institute Management System – An Educational Resource Planning Solution (ERPS)
- Research & Development Labs
- Strategic & Educational Consulting
- IT Products & Services

Corporate Segment

- Animation Services
- Document Business Process Services
- Consulting and Project Management
- IT Products and Turnkey Solutions
- Software Design and Development
- Business Process Reengineering
- NGO Consulting Services

Executive Summary

Our tag line Pyramiding Tutelage aptly communicates our aim of being the stepping stones to facilitate education in our country. Aligned to our vision, we aspire to make quality education, knowledge accessible both to students and teachers. This is possible by bridging the digital divide between the urban and rural areas; providing impetus to proper technical education. This includes educational gear to educational institutions spread across Tier II and Tier III cities.

Considering various teaching methods, learning philosophies and profile of students across geographies Tutelminds has designed solutions to meet the needs of both school and college students as well as teaching staff, administrative body, including management.

Our presence in each of the education verticals is marked with technology-enabled products, high quality people, structured processes and entrepreneurial leadership, that come together to deliver unmatched value for entire education life cycle. Tutelminds supports pre-school toddlers to post graduate students, from core curriculum subjects at the school & college level to vocational & employability skills for young about to enter the job market. Tutelminds reaches out to over 20000+ students at schools and colleges.

We have a full range of products that aid learning. Tutelminds is a leader in Kit based solutions for the Professional Education Segment. Tutelminds Engineering Kit is our student led educational solution that dramatically improves learning outcomes for the newcomers in the professional education courses. We have recently launched a new, improved version of Tutelminds Engineering Kit. In addition we have various technology led solutions like Tutelminds Learning Management Solution & Tutelminds Digital Library. The Learning Management System is a Classic Transformation System (CTS) and our alliance with a leading brand gives us the best Digital Teaching System (DTS) which is the biggest and most innovative initiatives in the space of digital classroom content and digital classroom hardware respectively.

Our alliances with leading brands support us achieve our goal and deliver best solutions in a cost effective way. We have made significant forays into vocational training and employability skills. Tutelminds helps professional college students to get ready for their first step into Corporate world. With an aim to prepare them to enter the corporate world, we train and handhold final and pre final year students, prepare them to touch the finishing line and face the corporate world with confidence.

Our Skill Development Solution for technical graduates are designed in line with the requirements of current industry. Tutelminds helps the scholars to understand and deliver curriculum which makes them employable. 'How to Freeze your Arms in MNC' is designed particularly for Engineering Graduates to meet the employability requirement of current IT Industries and Corporate world.

Tutelminds conducts various workshops on latest technologies to keep the scholars up to date with the current technologies in various verticals. These workshops are conducted by experienced subject matter experts.

Our bouquet of online and supplemental education solutions will support the learning needs of students and also keep faculty, teachers up to date with latest information. Tutelminds Online Learning Tool enables easy access to key information example current industry trends, changes in technology, enhanced processes, innovations, curriculum, etc.

Tutelminds Technoconsultants is your one stop solution for any educational needs.

Engineering Kit

Extensive research covering close to 5000+ students across 20 colleges spread across Western, Central and Southern India led to development of solutions for educational sector that dramatically improves learning outcomes for the newcomers in professional education courses. One such product is 'Engineering kit' that addresses the requirement of Engineering students both pursuing Degree and Diploma alike.

This kit is an assembly of all key gadgets that a student would need while pursuing engineering course. Truly a unique one stop solution that focuses on utility, quality, reliability; allows the student to focus on his studies and saves the effort of purchasing content, stationary at various interjections of the course.

This kit consist of our unique and patented products like Innovative Engineering Drawing Book, E- learning CDs, Customized Notebooks based on syllabus, 7 in 1 Instrument Polygon Scale, in all comprising of 35+ gadgets and literature. We have partnered with market leaders and best educational product OEMs to complete this Engineering kit.

Tutelminds has been successfully providing Engineering kits to Engineering Colleges across Maharashtra and Gujarat for the past 3 years. Feedback from the students and faculty members has been very encouraging, this kit is supporting students gain an edge in academics.

Why Tutelminds Engineering Kit?

- A one stop solution for all academic needs of students
- On Day 1 – the Students and Faculty are ready to start with their academics
- E-learning CDs help students to study and understand the abstract topics at their speed
- Our unique Engineering Graphics/Drawing book and Polygon scale has improved the success ratio of the students in Engineering Drawing, which is a new topic to maximum students post SSC/HSC
- Estimated to save upto 30% of the time of both students and faculty during class lectures
- Customized subject wise notebooks enable students in the class during lectures to prioritize the topics
- Customized kit bags with college logo supports institute in branding
- Our solutions are complete value for money for both students and institute. We also provide discounted rates, making it cost effective for the end user
- Reliable partners for students, faculties, college administration & institutes

Tutelbot Tutelminds Institute Management Software

This is a customizable ERP developed in line with All India Council of Technical Education (AICTE) norm which covers the entire life cycle of a student from Pre-admission to Graduation day.

Various modules available in Tutelbot facilitate all the processes of the institution, from pre admission of new students to generating transfer certificates when students complete their graduation.

Tutelbot has modules to manage Timetable, Attendance, Examinations, Gradebooks, Campus News, Hostel, Library, Transportation, School Calendar, Events and many more. It has a fully-fledged Human Resource module to manage the payroll and employee pay roll. The Finance module helps you to plan and allot different fee structures to students.

Tutelbot provides a user-friendly dashboard, login access for teachers, non-teaching staff, students and management personnel of the institution.

Tutelbot also has an excellent collaboration tool using its Task, Discussion, Poll, Blog and Video conference plugins. There is an internal messaging system within Insmae, it can also be integrated with external communication tools like email and SMS texting.

Tutelbot can be customized as per Institution's requirement and are available in three different options:

| Core Modules	Premium Modules	Integrations
Courses and Batches	Hostel/Dormitory	Video Conference
Human Resources	Library	Google Apps
Student Attendance	Transportation	Moodle
Timetable	Poll	Tally
Examination	Assignment	Payment Gateway
Multiple Dashboards	Placement	
Student Admission	Task	
News Management	Discussion	
User Management	Instant Fee	
School/Event Calendar	Data Management	
Finance	Mobile Version	
Student Information	Blog	
Employee/Teacher Login	Custom Import	
Student	Custom Report	
	Color Theme	
	Gallery	
	Inventory Registration	
	Fee Import	
	Email Integration	

Tutelminds How to Freeze Your Arms in MNCs

If one were to ask when a person's career starts, the most common answer would be, 'with his first job'. But if the question was, 'when does the preparation for one's career start', there might not be a clear-cut answer. Career is often defined as the general course or progression of one's working life or one's professional achievements. However, the preparation for any career, irrespective of how successful it is, starts much before one actually starts working.

Tutelminds has identified three distinct stages in a person's career, each stage being equally important on the path to vocational self actualization. The three phases has led us to form our Triple E "EEE"

- Knowledge Enablement
- Employability Enhancement
- Job Effectiveness & Efficiency

Knowledge Enablement typically happens during the pre-job and early career stages. It is during these years that one can develop life skills and career foundation skills, which will have a long-term impact on the shape that one's career takes. Language, communication, logical, mathematical, IT foundation skills etc. are enabling skills that help one assimilate knowledge, analyze it, and communicate one's thoughts and ideas effectively. These vital skills are the absolute bedrock of a successful career.

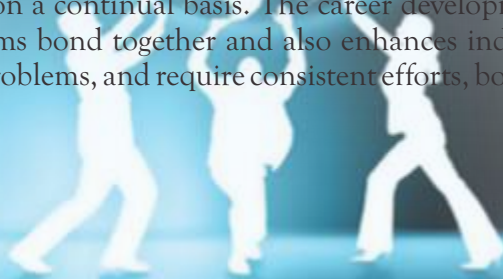

Employability Enhancement focuses on the skills required to get and keep one's job, typically one's first job. Employability is a result of robust educational qualifications, right attitude, strong aptitude and interest, effective communication skills, technical competency, relevant global certifications, and demonstrable project or work experience.

Effectiveness & Efficiency in the career life-cycle paradigm refer simply to a set of skills that help the individual do a better job. These would typically be relevant once the person has gained initial employment and is looking for a career step-up. At this stage, the focus of career development shifts from basic issues of vocational identity to acquiring sharpness in skills or education or opportunity.

How to Freeze Your Arms in MNCs is a Tutelminds Career Development Program (CDP) specifically designed for Freshers or College Graduates from professional education. The complete program is about developing raw students to processed employable graduates. The program is a mixed bag of Aptitude, Behavioral, Technical and Business aspects.

How to Freeze Your Arms in MNCs is basically a program designed for Engineering and Management students to achieve their career goals. This program is built on the lines of some of the very best Technical, Professional and Leadership Development Program around the world. It has been conceptualized, developed and run exclusively by Tutelminds. Hence it is not just a skill building program, it is a transformational program. The idea behind the CDP was to create an "Endeavour" where participants improve the employability, are able to crack interviews as well as their ability to overtake their peers in corporate life.

How to Freeze Your Arms in MNC's, as a program, is designed to build skills at an individual level as well as at the group level. It includes not just an exchange of knowledge, but also a great deal of practical, hands on experience. It comprises of knowledge exchange, reading articles, books and working on practical assignments involving problem solving on a continual basis. The career development program also has games, exercises and activities that help teams bond together and also enhances individual excellence. All assignments are based on real life business problems, and require consistent efforts, both at the individual and group levels.

Research & Development Labs

Research and Development is a set of strategic, proactive, catalytic, and capability building activities designed to facilitate individual faculty members, teams of researchers, and central research administrations in attracting extramural research funding, creating relationships developing and implementing strategies that increase institutional competitiveness. These activities are typically practiced at universities, however are also in use at a variety of other research institutions.

Research and Development includes a diverse set of dynamic activities that vary by institution. These activities include initiating and nurturing partnerships, networks, alliances between faculty at their institutions and funding agencies; designing as well as implementing strategic services for their faculty and researcher constituents (such as workshops, trainings, program officer visits, proposal editing, PR communications, funding opportunity searches and dissemination, budget preparation, forms and submission assistance, research team building, and administering campus limited submission reviews) constituents (such as workshops, trainings, program officer visits, proposal editing, PR communications, funding opportunity searches and dissemination, budget preparation, forms and submission assistance, research team building and administering campus submission reviews).

Strategic & Educational Consulting

Tutelminds also specialises in planning and setting up educational institutions of international standards. These include professional institutions like Degree Engineering Colleges, Diploma Engineering, MBA Colleges and other kind of professional Institutes, schools pursuing curricula of Indian Boards, Colleges, Business Schools, Vocational Training Institutes and Professional Integrated Business Schools.

Tutelminds is now working to specialize in establishing collaborative arrangements between Indian and foreign universities, primarily in the

fields of engineering and management studies. These include twinning arrangements, distance and on-line education tie-ups, franchising arrangements, faculty exchange programs, student exchange programs at both the undergraduate and graduate levels.

We draw upon the expertise of our associate consultants, who are experienced and have a sound knowledge of their respective specialisations in the field of education, sharing of best practices and ideas in developing a high-quality learning environment. Consolidated support under one roof however customized to your requirement either to lead or support the project. Our aim is to provide service of international standards to our clients ensuring their requirements are met in a cost-effective and timely manner.

Our range of services include detailed project reports, feasibility reports, international collaborations, due diligence reports for acquisition of schools, upgrading of existing schools and a host of other activities. We also undertake a monitoring role, starting with working alongside the architect to ensure that the final design

meets the curricular and organisational needs of the institution, right upto advising on equipment, including infrastructural requirements for information technology, laboratory design, computer centers, multi purpose halls etc. We assist our clients in selection and recruitment of faculty, both Indian and expatriate.
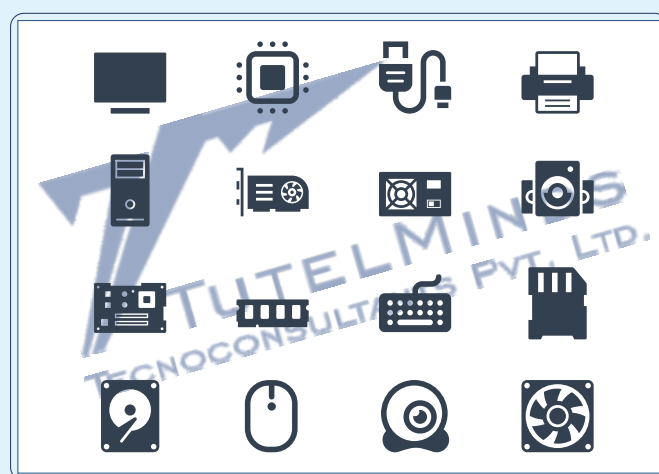

Our strengths:

- An expert base of highly experienced and qualified consultants and associate consultants
- Access to expertise through important overseas and Indian consulting organisations
- Close interaction with the client at all stages of the project to deliver customised solutions
- Ensuring objectivity
- Adherence to international quality standards
- A proven track record of establishing world-class educational institutions

IT Products & Services

Tutelminds provides consultation to educational institute for all IT Products and services right from planning, budgeting to execution phase. We provide hardware based solutions, manage technology resources and provide consulting for procurement /tendering with the best price point.

IT infrastructure is a key value driver for every institute in today's business environment. Institutes require a flexible, secure and responsive IT infrastructure - all at lowered costs, so as to remain competitive. At Tutelminds, we manage Total Cost of Ownership, as to remain competitive. We offer end-to-end Managed Infrastructure Services that help clients achieve an optimized, secure, and scalable IT infrastructure. We help them achieve this by means of our technical expertise, benchmarked operational processes, business-driven IT service-level agreements (SLAs), best in class solutions, modular solutions and a wide range of engagement models and transparent pricing options.

With cutting edge technology, IT operations and process paradigms like virtualization, cloud computing and green IT, we will be able to transform our clients's IT environment; leveraging these next-generation technologies across their data centers, networks, and production and end-user computing environments. Our Managed Infrastructure Services will help clients bring down their total cost of ownership (TCO) upto 25%, while aligning service levels to meet changing business needs.

To
The President,
Shri Vithal Education and Research Institute (SVERI),
Pandharpur-413304.

Subject: Regarding ERP-RWork for Shri Vithal Education and Research Institute (SVERI)

Respected Sir,

The directors of the Board of our Company are the members of Trust Shri Vithal Education and Research Institute (SVERI), Pandharpur. In view of this, we are providing ERP-RWork to the following institutes of SVERI at free of cost.

1) SVERI's College of Engineering, Pandharpur
2) SVERI's College of Engineering (Poly.), Pandharpur
3) SVERI's College of Pharmacy, Pandharpur
4) SVERI's College of Pharmacy (Poly.), Pandharpur

The details of the modules are attached as Annexure-I

Yours Sincerely,

Suraj B. Ronge
Director

Details of the modules be provided as follows:

1. **NBA - UG Tier II**
    a. Criteria 1 (1.1., 1.2., 1.5.)
    b. Criteria 2 (2.2.2.C., 2.2.2.D.)
    c. Criteria 3 (3.1.1., 3.1.2., 3.1.3., 3.2.2., 3.3.2.)
    d. Criteria 4 (General Reports, 4.1., 4.2.1., 4.2.2, 4.3., 4.4., 4.6.2., 4.6.3.)
    e. Criteria 5 (General Reports, 5.1., 5.1.1, 5.2., 5.3., 5.4., 5.5., 5.6., 5.7.1.A., 5.7.1.B., 5.7.2, 5.7.3.A., 5.7.3.B., 5.7.3.C., 5.7.3.D., 5.7.4, 5.9.)
    f. Criteria 7 (7.1.)
    g. Criteria 8 (8.1., 8.2., 8.3., 8.4.2, 8.5.1., 8.5.2.)
    h. Criteria 9 (9.7.A., 9.7.B.)
    i. Criteria 10 (10.1.1.)
2. **NBA - PG Engg**
    a. Part B (1., 3., 4.)
    b. Criteria 1 (1.2.1.A-B, 1.2.1.C., 1.2.1.D., 1.2.3.C., 1.2.3.E., 1.2.3.F.)
    c. Criteria 2 (2.1., 2.2.2.)
    d. Criteria 3 (General Reports, 3.1., 3.2., 3.4.1.)
